

Great news!!

Another rock trip has been added to the Arizona Rock Hound website.

The Lake Pleasant Geode trip is an extremely difficult trip to area near the Largest Lake in Arizona. There are some very interesting attractions nearby. You must have a short wheel base 4X4 and excellent off-road driving skills to make this trip. We had an almost new F150 4X4 that became high centered and took over an hour to free. The Geodes are very picked over, however the Desert Roses are plentiful and it is a gorgeous area with a few Desert flowers beginning to show up here and there.

If you know of a trip that you would like to see documented let me know.

Please let me know if you experience any difficulty with the website or if you have suggestions for making improvements.
