

Wenden Pink & Green Marble Warning

I have just learned that due to recent storms that the off road portion of this trip is now almost impassable. If you plan on trying this trip either an ATV or a Dirt Bike are probably the only vehicles that could make it the collecting area and even then it is dicey. There are sections of the road that have disappeared and there are ruts deep enough to cause a problem for almost any vehicle.

Happy Holidays and good rock hunting in the New Year,

Rock Dog
