

Rock Hound Members,

I have some good and some bad news.

The good news first: I have completed the new Dobell Ranch site. This site is located near Holbrook adjacent to the Petrified National Forest. They have an abundance of beautiful rainbow petrified wood available by the piece of \$28 for a five gallon bucket.

The bad news is that the Rowley Mine has been closed by Mine Safety and Health Administration - MSHA. I spoke with Keith at the mine and he indicated that it was unlikely that it could be re-opened.

Happy Rock Hunting
