

The following changes have been made to the website:

- Trips in region on each Trip description home page change to a table format with color coding the same as all other indices.

Green = Rock Trip, Red = Closed site, and Turquoise = Back Country Trips.

- The drop down under Resources was re-arranged into alphabetic order and two new items were added:

- o Safety Tips

- o Where to find Fossils in Arizona

Any suggestions for improvements or corrections to the website are greatly appreciated.

Happy Rock Hunting
