

Dear Members,

I recently sent the following update about the Mayer Onyx collecting site:

“I visited the Mayer Onyx site on Tuesday October 13, 2015. The track up the hill has gotten worse. I found the attached sign at both the black & white and the honey site. I am researching the “Black Bear Group” and will provide more info when available. “

Here is the follow-up info:

I have asked a lot of people about the Mayer Onyx collecting site. One person that I spoke with the Mineralogical Society of Arizona indicated that he thought that the claim was valid, therefore I’m going to be changing the Mayer Onyx site to a closed location.

If anyone hears anything different would you please let me know. I will try to get back to the site when I can to see if the sign is still there.

Happy Rock Hunting
