

**April 20, 2019**

**Hello Members,**

**I recently received word from a member that the Regal Mine location has been closed to public visits. This is one of three sites located near the Phillips mine. The two other location are still accessible. I will update the website to indicate that this site is no longer open.**

**I have included a photo I made of the locked gate.**

**Not fun to tackle the road down the hill to the Regal only to find it closed!!**
